ATTN: Chairman Mark Hutton  
Members of the Commerce Labor and Economic Development Committee

Please Oppose HB 2200

We own EZSpirits, a software company that provides point-of-sale for Kansas liquor stores. We have 140 stores all in Kansas. They provide our total source of revenue. HB 2200 is definitely going to cause many of these stores to go out of business. The side effect is that many small businesses that provide services to liquor stores will also suffer. Hardware providers, software providers, janitorial services, office suppliers and janitorial services are just a few of the businesses that are part of this network of Kansas business that will give up revenues to the corporations that will draw money out of our economy.

We would urge you to defeat HB 2200 and keep Kansas businesses and their Kansas owners solvent.

Thank you,

Jack Matchette
